Option 2 – You can purchase one of our ring sizing tools by emailing us. The tool is used as a gauge and can be adjusted for the most comfortable fit.

What the best fit feels like:

- Your rings should fit snug enough that they will not slide off your finger but can be encouraged over your knuckle.
- Size measuring is recommended to be done at the end of the day when your fingers are warm
- Check your size several times and throughout the day to avoid an inaccurate reading
